- Russian: C2

PROFILE

Product Designer with 6+ years of experience in UI/UX and product design. I work on complex B2B SaaS products in the Atlassian ecosystem and also have experience with B2C products outside of Atlassian. I design and ship product features from early ideas to launch, working on workflows, user problems, and product improvements together with cross-functional teams. I have experience across the full product cycle: from exploring problems and shaping solutions to testing, iteration, and delivery. I also lead and mentor a UI/UX design team and help plan and manage team workload across projects.

WORK EXPERIENCE

Lead Product Designer / Design Lead Product Designer SaasJet	2024 – Present Feb 2022 – 2024
- Led end-to-end product design for complex B2B SaaS products in the Atlassian ecosystem, from problem framing to developer handoff. - Designed data-heavy features across analytics, reporting, workflows, configuration, and dashboards. - Defined reusable interaction patterns and contributed to a shared design system across multiple Jira products. - Collaborated closely with Product, Engineering, and QA on complex product and technical challenges. - Progressed into a design leadership role, leading design reviews, mentoring designers, and supporting delivery across multiple products. - Integrated AI-assisted workflows into research, design exploration, and rapid prototyping.	
UI/UX Designer Freelance	Dec 2019 – Feb 2022
- Designed UI and UX for B2C and SaaS products. - Built UI components and simple design systems with developers. - Created branding, logos, and marketing pages for early-stage products. - Designed landing pages to clearly communicate product value.	
Jurisconsult Law Teacher	Nov 2009 – May 2016
- Developed strong analytical and structured problem-solving skills through legal practice and teaching. - Translated complex information into clear, understandable communication for different audiences.	
PORTFOLIO	
Time in Status Analytics & Reporting Platform for Jira Link to product Designed complex reporting, dashboards, filtering, workflow visualization, and data-heavy experiences for enterprise Jira users.	
Replicoo Digital Health Platform Link to product Designed the product from early discovery to MVP, including core flows, dashboards, onboarding, profiles, and medical data visualization.	
Capture in Chrome Browser Task Creator Link to product Designed the product end to end, from concept and UX flows to UI and launch.	
EDUCATION	
UI/UX Design IT Leaders DataArt	Okt 2021 – Dec 2021
Worked on a team-based IT project focused on end-to-end product design. Designed user flows, wireframes, and multi-page interfaces, conducted competitor analysis, and applied object-oriented design principles to structure complex product features.	
Courses UI/UX Design Design Kitchen	Sep 2019 – Dec 2019
Led a client project from brief to presentation, conducting JTBD research and competitor analysis. Designed and presented a landing page concept and contributed to the redesign of an e-commerce product.	
Master's Degree in Accounting and Audit National Technical University "Kharkiv Polytechnic Institute"	Sep 2008 – May 2013
Master's Degree in Jurisprudence Yaroslav Mudryi National Law University	Sep 2007 – May 2012
